

CORPORATE CAPABILITIES

Capability Statement

Integrated mission support across health, technology, infrastructure, and aerospace.

DIGITAL HEALTH • GLOBAL HEALTH • ENGINEERING • AVIATION/AEROSPACE

Dontia White, CEO | 478-305-0051 | dwhite@integrate-systems.com
Warner Robins, GA | Augusta, GA

CAGE CODE: 7AWC8 | Unique Entity ID: Y9TGYRDXJM31 | Primary NAICS: 541611

Preparedness and outbreak response

TECHNICAL TEAM EXPERIENCE

Ebola response in West Africa and the Democratic Republic of the Congo, including clinical operations and frontline training.

2014-2016 | WEST AFRICA

Supported Ebola rapid response teams and the survivors program in Guinea. Advised on measles outbreak strategy with national and international partners.

2018 | DEMOCRATIC REPUBLIC OF THE CONGO

Led clinical care and response work in Ebola treatment centers in North Kivu and Ituri. Trained medical and community teams in case management and infection prevention and control.

CORE SERVICES

Outbreak preparedness, emergency response, clinical operations, infection prevention, workforce training, and response curricula.

Laboratory and diagnostic capacity

Laboratory systems strengthening, diagnostic readiness, biosafety, biosecurity, assessment and capacity building.

UNIVERSITY OF ABUJA + FCT, NIGERIA

02 Laboratory systems

Central Laboratory Services Unit, North Central/Zonal Multipurpose Research Laboratory and FCT microbiology diagnostic laboratories.

UNIVERSITY OF ABUJA | FCT, NIGERIA

Laboratory leadership, diagnostic assessment, equipment planning, biosafety, and technical training.

CENTRAL LABORATORY SERVICES

Managed the Central Laboratory Services Unit at the University of Abuja from 2020 to 2026.

FACILITIES AND DIAGNOSTIC READINESS

Supported equipment planning for the TETFUND-funded North Central/Zonal Multipurpose Research Laboratory. Assessed FCT microbiology laboratories for diagnostic, facility, equipment, and training gaps.

SPECIALIZED EXPERTISE

Medical virology, pharmaceutical microbiology, medical mycology, molecular methods, biosafety, and biosecurity.

Integrated support for global health security

Integrate Systems connects federal program management and staffing with technical expertise from qualified personnel and strategic partners.

PREPAREDNESS AND RESPONSE

- Ebola and other high-consequence outbreaks
- Clinical operations and infection prevention
- Rapid response and workforce readiness
- Training and preparedness curricula

LABORATORY AND DIAGNOSTICS

- Diagnostic and laboratory readiness
- Facilities, equipment, and network assessment
- Biosafety and biosecurity
- Technical training and capacity building
